ITEMS AT THE COURTS.

Sergt Wills last night raided the servinte "quarters at a German mess in 5, Obsexvatory Villas, Kowloon, and arrested five coolies, whom he found gambling, on charge of trespassing, Four of them were from the German Club. Fines of \$3 each were imposed at the Magistracy to-day.

Opium Excise officers yesterday made a raid on premises situate at 12; Kwai Wah Lane, and found a considerable quantity of prepared and dress opium, three "chops" in imitation of the Opium Farmer's, a quantity of wrappers and about 400 small opium bares. Four men were arrested and at the Magistracy to-day one was fined \$150, or three months' hard labour, the other three were discharged on the count of possession of "chops" and one of their number remanded on another charge.

> THE "DAILY PRESS" DIRECTORY.

It is with pleasure that we again welcome the appearance of that remarkably comprehensive and most trustworthy Directory and Chronicle which is yearly published by the Hongkong Daily Press. This is the 48th year of its publication and with each appearance it seems to increase in bulk and grow in value. - Certain is it that there are lew, if any, like productions which cover such a wide geographical 'area or which include se much really reliable information within its pages. It could with every justification proclaim itself as the business man's vale moount. A few lines will suffice to indicate its broad scope. It covers China, Japan, Hongkong, the Philippines, Macno, Korea, Indo-China, Borneo, Eastern Siberia, Siam, Netherlands India, the Straits and the Malay States. To each of these acttlements there is a most complete commercial and private directory, together | For the Mountains (Vocal) ... Mondelssohn with well-defined plans of streets, etc., as well as much interesting descriptive matter; statistical information indicates the commercial activities, of the various ports; a big feature is made of international tresties, which are set out in debaled text; tariffs, port regulations, statutory rules and orders also find a place; there is a enost extensive postal guide for Hongkong urbile maps, house flags in esters, calendar, a useful chronological list of Far Eastern occurrences, a complete directory of foreign residents, as well as of British traders and Protestant-missionaries add te the value of the mammoth publication, which comprises nearly 2,000 pages. Ital production is a tribute to the workmanship of the well-known office. . . .

THE HOMOKONG UNIVERSITY

Temporary Disposal of Funds.

On Wednesday afternoon the ninth meet ng of the Committee of the Hongkong University was held under the presidency of His Excellency Sir Frederick" Lugard. Those present were :- H.E. The Governor, Sir Fr. Hr. May, K.C.M.G. (Col. Hoc.), Sir O. P. Chater, "C.M.G., Hon. Mr Thomson (Col Treasurer), Hon. Mr Brewin (Registrar General), Hon. 'Dr Ho Kai, C.M.G., Hon. Mr Wei Yuk, M.G., Hon. Mr P. N. H. Jones (D.P.W.), Mr Clomenti, The Bishop of Victoria, Hon, Mr M. Stewart, Mr Lau Chu Pak, Mr Irving (Director of Education). Absent-Mr Mody and Mr Pollock (in England).

The Chairman informed the Committee that he had received a telegram from Mr . H. Scott to the effect that Messrs. Butterfield and Swire and allied firms were satisfied that the conditions on which they had promised to give £40,000 to the Endowment Fund of the University were alfilled and they confirmed the gift. He had also that afternoon received a letter from the Chairman of the Chinese Sub-Committee informing him that £113 (\$1,259) had been received from the Chinese in Australia towards the Endowment Fund. The scholarships claimed by donors of \$10,000 and upwards are as

Mr Ng Li Hing, four plus, one of \$120. Mr Chiu U Tin, Mr Au Chak Man and Mr Ho Tung, each one. The Canton Reorganization Bureau and the Canton Literary Chancellor, each four.
The Canton Salt Commissioner and Cus-

tom a, each three. Total, twenty-two, involving a capital of

The Treasurer, Sir C. P. Chater, C.M.G., called attention to the letter he had addressed the Chairman and its reply which had been published in the local Press " and stated " that since" the date of the subscription list attached to that letter he had collected many of those gig which had not been paid up. The amount now actually lying in the Bank to the credit of the Fund was \$683,320.

A site plan showing the proposed location of the students' quarters and the whole of the University buildings was circulated to

The Chairman stated that it was proposed to build three (to accommodate 180 residents) out of the six blocks of buildings for students' residences. It is assumed that these will cost about \$100,000, but the sub committee consisting of Mr Brewin, THE SAYINGS OF CONFUCIUS, Dr Ho lini and the Director of Public Works are at present engaged in formulating recommendations which they hope to submit shortly as to the dimensions of the rooms and various requirements of the buildings, and no exact estimate is possible until the designs have been approved. These buildings together with the Anatomical A short introduction gives some account Laboratory are additional to those which

Sir Henry May pointed out that the Anatomical Laboratory had been promised by Mr Ng Li Hing at a cost of about \$20,000, but he had later, with the consent of the College of Medicine, transferred the whole of his gift of \$50,000 to the Endowment Fund. The College of Medicine were most anxious to have this Laboratory erected at an early date, since it was in the department of Practical Anatomy that the present students were weakest. Dr Ho Kai said that the original plan for the Laboratory would require enlargement to meet the needs of the Medical Faculty of the University and would cost not less than \$25,000. The Chairman then proposed that it should be suggested to Mr Ng Li lling that he should withdraw the sum of \$25,000 from the Endowment Fund and erect the Laboratory as he had originally undertaken to do. He would then be entitled to two scholarships in respect of his remaining donation to the Endowment Fund. This was agreed to.

The Chairman said that the principal object of the meeting was to decide how the funds in hard should be dealt with. Messrs John Swire & Sons' donation was £30,000 invested in 5 per cent. Mortgage Bonds, and the donation from the Taikeo Sugar Company and Ocean S.S. Company amounting together to £10,000 would be understood be made in cash "when the be invested locally in mortgages, or in the

alternative that it should be placed on fixed deposit in a Bank. He was strongly opposed to investment in bonds, or in mortgages outside the Colony. 'Sir H. May and Mr Thomsen supported Sir P. Chater's view that the best investment was in local mortgages. Mr M. Stewart advocated that about half the capital should be invested in gold securities and half in silver in order to however, content that the whole of the existing funds should be invested in silver securities provided the £40,000 of Mesara Butterfield, and Swire and Allied Firms were invested in gold. After considerable discussion the following Resolutions were THE Understaned has received instruculopted nem con. -The Committee after consideration of the report of Mr Brewin's Sub-Committee de (a) That the proposed site for the University at the junction of the Bonham and Pokfulam Roads offered by Government be accupted. (h) That the students and the professorial staff shall reside elsewhere than in the Main building, and that residential quarters for 60 students shall be provided at once, with room for expansion to 500. (c) That the Main (Educational) Building should be sufficient for the instruction of 500 Students in "Arts," " Engineering" and "Medicine," with room for extension The Committee considered that the plans and designs approved in Resolution would meet the requirements. The funds subscribed for the Endowment of the University with the exception of the £40,000 given by Mossra Butterfield and Swire and Allied Firms shall, be juvested in mortgages on property in Hen skong at a rate of interest of not less than 6 per cent, with not less than 1.3 margin terminable annually:" In order that the students who at the time of the opening of the University may be members of the H.K. College of Medicine, may be properly qualified to become under graduates of the University in accordance with Resolution 5 (a), the salary of one Medical Professor, at a cost not exceeding £000 per annum, shall be defrayed from the revenue of the University as from January 1st, 1911. The Medical College on its part undertaking to make renewed efforts to obtain subscriptions from its supporters towards the Endow-Sir H. May called attention to the original

resolution No. 9 of November 18th, 1908. which did not appear in the revised resolu, tions adopted by the Committee on July 23, 1909. By that resolution it had been agreed that two permanent lacturers should he provided, for the College of Medicine out of the interest on the Endowment Fund He now proposed that when the Endowment Fund had yielded interest for one year a sufficient aum should thereafter he paid from the interest accruing to provide one lecturer on anatomy for the Medical College. The Chairman said that he had discussed this question with Sir H. Mayand was prepared to support his motion and to recommend it to the Committee. The old Resolution No. 9 had been framed on the understanding that the College of Medicine were about to make an appeal in England to which they anticipated a large response, and they were naturally unwilling that the funds so raised should be absorbed in the Endowment Fund of the University and produce no immediate benefit for the College of Medicine. Unfortunately, however, the Endowment Fund had as yet received no such contribution from friends of the Medical College in England. and the understanding upon which the resolution had been framed had not therefore been fulfilled. Sir H May had intimated that the friends of the College of Medicine would now make a renewed effort, and as it is to the interest of the University that as many well qualified students as possible should be available to commence work when the Universityopens he (the Chairman) thought the modified proposal now made should be accepted. It was agreed that as from January 1st, 1911, a sum not exceeding £600 per annum should be devoted from the interest on the Endowment Fund to the payment of a permanent teacher in Anatomy for the Hongkong College of Medicine. He will be engaged on such conditions of service as the Committee may hereafter approve with the object of including him in the permanent professorial staff of the University when it is in-

Therefore he opposed the union, until at last the distracted lover brought a suit in the courts to compel the" old min to give his consent. He succeeded, and for twelve years, lived in the utmost happiness with his wife. In this period he composed those masterpieces that have given him a place among the great composers, but after ten years of happy work he began to develop eccen-Tuning and Regular tricities that swiftly grew into insanity. At the age of 44, when his prospects were most brilliant, Scarrians attempted suicide by plunging into the Rhine. He was rescued, but his reason had

been shattered, and two years later he

died in an asylum.

Another eccentric musical genius born in 1810 was OLE BULL. OLE was a to Australasia. Norwegian, and was designed for the church by his father, a chemist in Bergen. He played the violin as an amateur, but probably no one would have ever heard of him as a musician had not the conductor of an orchestra the eve of an important performance, No professional substitute was available or such short notice, and so OLE BULL the talented young amateur, was summoned. Such an ovation did his playing receive that he threw aside his books, and decided to live by his violin. About this time he had the France, misfortune to wound an opponent in a duel, and to escape arrest fled to Paris. Here ill-luck and disappoint ment awaited him. Like Schumann, he resolved to end his troubles by suicide, but Bull also was fished out of the occasion. 5.20 p.m.—Organ Recital in St. John's the water. dinary career. He died in 1880. -ALFRED DE Musser, who is ranked with Hugo and Lawarran among the French poets, was another genius of 1810. He was a ne'er-do-well youth, cruiser. but at the age of 18 had written poems that attracted Hugo's attention. He too, was one of Georges Sand's lovers, and it was this brilliant woman who inspired some of his best verses, just as she had inspired some of Chorn's few americanies to colebrate which most beautiful melodies.
